Anchoring a ray of Universal Light

For participating in the **3 large events** ([January](#), [July](#), [September](#)), we ask that the people be a supporting **member** of Byakko Shinko Kai or to be a registered Satellite Member.

All the other monthly events including the other 2 large events ([May](#), [November](#)) are **open to ALL**.

At the [Anchoring a ray of Universal Light](#) monthly ceremonies, the Ultimate Universal Light is anchored in the Prayer Field, and the Prayer for World Peace in each country's language is performed with "Jinrui Soku Kami Nari" IN.

As well, various divine activities (Goshinji) can take place spontaneously, guided by Masami Sensei.

If you live overseas and cannot participate in the monthly ceremonies, connect with us through special breathing technique at 12:45 noon Japan time. If difficult then 12:45 noon your local time.

Breathing technique: (once or 7 times)

Inhale thinking "Ware Soku Kami Nari" (I am Divine)

Hold your breath and declare "Accomplished"

Exhale thinking "Jinrui Soku Kami Nari" (Humanity is Divine)

"The ultimate light of the Universal God that descends on the Fuji Sanctuary is surely transmitted to all those who are praying, transcending time and space. Thus co-resonant fields are created around the people who pray. **Essential is to create many co-resonant fields on Earth other than the Fuji Sanctuary.**

How grateful I am for your precious contribution!

I sincerely ask for your further cooperation for world peace, for the happiness of humanity and for bringing the 21st century into a divine and spiritual age."

Masami Saionji
