

Symphony of Peace Prayers 2009

Prayer for the Oneness of All Living Things

Peoples of all nations,
All plants and animals,
Mountains, oceans, water, air and sun —
Though they appear as separate existences,
The same vibration of life
Resides in all of them.

The Earth is one great living being.
When all living things attain great harmony,
A bright new future for the planet will unfold.

We offer this prayer
That all life on Earth will become one
And resonate in a symphony of love and harmony,
As one shining star in a harmonized universe.

May peace prevail on our planet Earth.
May peace be in each and every life.
May all life on Earth become one with all life in the universe,
Evolving together to create a radiant future.

May peace prevail on Earth
